INDEPENDENT AUDITOR'S REPORT

Board of Fire Commissioners
Fire District No. 1 of the Township of Washington
County of Gloucester
Sewell, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities of each major fund and the aggregate remaining fund information of the Fire District No. 1 of the Township of Washington, County of Gloucester, State of New Jersey, as of and for the fiscal year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and in compliance with audit standards prescribed by the Local Finance Board and by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Fire District No. 1 of the Township of Washington, County of Camden, State of New Jersey, as of December 31, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Change in Accounting Principle

As discussed in Note 1 to the financial statements, during the fiscal year ended December 31,2020 the District adopted new accounting guidance, *GASB Statement No. 84, Fiduciary Activities*. Our opinion is not modified with respect to this matter.

Prior Period Restatement

Due to the implementation of GASB Statement No. 84, net position as of January 1, 2020 on the statement of activities and the statement of revenues, expenditures, and changes in fund balances has been restated, as discussed in Note 19 to the financial statements. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 28, 2022, on our consideration of the Fire District No. 1 of the Township of Washington's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Fire District No. 1 of the Township of Washington's internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Fire Commissioners
Fire District No. 1 of the Township of Washington
County of Gloucester
Sewell, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Local Finance Board and by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, the financial statements of the governmental activities of each major fund and the aggregate remaining fund information of Fire District No. 1 of the Township of Washington, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise Fire District No. 1 of the Township of Washington's basic financial statements, and have issued our report thereon dated March 28, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Fire District No. 1 of the Township of Washington's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Fire District No. 1 of the Township of Washington's internal control. Accordingly, we do not express an opinion on the effectiveness of Fire District No. 1 of the Township of Washington's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Fire District No. 1 of the Township of Washington's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Local Finance Board and by the Division of Local Government Services, Department of Community Affairs, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Fire District No. 1 of the Township of Washington's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Local Finance Board and by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, in considering the Fire District No. 1 of the Township of Washington's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FIRE DISTRICT NO. 1 OF THE TOWNSHIP OF WASHINGTON
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED DECEMBER 31, 2020

As management of Fire District No. 1 of the Township of Washington, we offer readers of the Fire District No. 1 of the Township of Washington's financial statements this narrative overview and analysis of the financial activities of the Fire District No. 1 of the Township of Washington for the year ended December 31, 2020. The intent of this narrative is to look at Fire District No. 1 of the Township of Washington's overall financial performance in terms easily understood by the lay person. Please read this in conjunction with and the District's financial statements which begin on page 15. Notes to the financial statements will provide the reader with additional useful information and they begin on page 23.

FINANCIAL HIGHLIGHTS

Management believes the District's financial position to be strong. The District is well within its stringent financial policies and guidelines as set forth by the Fire District members. Some specific items of note include the following:

- The liabilities of the District exceeded its assets at December 31, 2020 by approximately $11.57 million. In 2019 the excess of liabilities over assets was approximately $10.53 million. This is an increase of $1,046,058.

- At the close of the current year, the District's governmental funds reported combined ending fund balances of approximately $16.6 million, an increase of approximately $9.96 million, or approximately 151.03 percent (151.03%), in comparison with the prior year.

- During 2020 the District operated at a deficit of approximately $1,049,000. In 2019 the district operated at a deficit of approximately $640,700. This is a change of approximately $768,300

- The District increased their liabilities by approximately $11.83 million in 2020 and increased their total assets by approximately $10.79 million.

- During the current year, the Fire District increased its obligations for debt services by $9,970,000 for outstanding general obligation bonds. Additionally, it paid $330,000 of existing obliagations. The District also decreased its obligations for debt services by $554,654 for outstanding capital leases payable.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. Fire District No. 1 of the Township of Washington's basic financial statements are comprised of three components: district-wide financial statements; fund financial statements; and notes to the basic financial statements.

Reporting on the District as a Whole

Our analysis of the District as a whole begins on page 9. District-wide financial statements are provided to give the reader a broad overview of the District's financial position and its financial activity for the year. It is presented in a format similar to the private sector to give the reader a familiar point of reference.

The Statement of Net Position presents information on all the assets and liabilities of Fire District No. 1 of the Township of Washington. The difference between the assets and liabilities is reported as the District's net position. Significant increases or decreases in the District's net position can be an indication of the financial health of the District. The Statement of Activities presents financial information about activities that result in the District's net position increasing or decreasing during the year. Financial activities are

Reporting on the District as a Whole (continued)

recorded when the transactions occur rather than when the cash is received or disbursed. As a result, there could be activities that result in cash flow in a future period.

The district-wide financial statements report on the financial data by function. Fire District No. 1 of the Township of Washington has two basic functions: activities that are supported by property taxes; and activities supported by other governmental activities. Fire District No. 1 of the Township of Washington provides firefighting services to the citizens of Washington Township. The District also provides services for the enforcement of the state and local fire codes and fire prevention education.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Like other state and local governments, Fire District No. 1 of the Township of Washington uses fund accounting to document compliance with finance-related legal matters. Fire District No. 1 of the Township of Washington has one type of fund, which is the governmental funds.

Governmental Funds

Fire District No. 1 of the Township of Washington's activities are all reported in governmental funds. These funds record the flow of cash in and out of the District during the period and the balances remaining at year end for future periods. The modified accrual basis of accounting is utilized for reporting purposes. This method of accounting measures cash and all other financial assets that can be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services that it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's services.

Fire District No. 1 of the Township of Washington maintains three separate government funds, the General Fund, Capital Projects Fund and the Debt Service Fund. Information is presented in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the capital fund.

The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation at the bottom of the fund financial statements.

As required by N.J.S.A. 40A:14:78-3, Fire District No. 1 of the Township of Washington adopts an annual budget which is voted on by the legal voters of the district on the third Saturday in February. Budgetary comparison schedules have been prepared to document compliance with budgetary requirements.

Notes to Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the district-wide and fund financial statements. The notes to the financial statements are an integral part of the financial statements.

DISTRICT-WIDE FINANCIAL ANALYSIS

Fire District No. 1 of the Township of Washington's net position is a useful indicator of the District's financial condition. At the end of 2020, the District's liabilities exceeded its assets by approximately $11.57 million. The largest portion of Fire District No. 1 of the Township of Washington's net position is its restricted for capital. The District uses these assets to provide fire-fighting services to the community; consequently, these assets are not available for future spending. Fire District No. 1 of the Township of Washington's investment in capital assets is reported net of related debt. Since the capital assets are not available to liquidate the debt, other sources must be utilized for the repayment of the debt.

Governmental Activities (continued)

Property tax revenue constituted 91% of the total governmental activities revenues received by Fire District No. 1 of the Township of Washington in 2020. In 2019 the property tax revenue constituted 94% of total revenues.

The Cost of Operations & Maintenance was 87% and 86% of the District's total expenses in 2020 and 2019, respectively. Administration expenses equaled 5% and 6% of the total expenses in 2020 and 2019, respectively.

FINANCIAL ANALYSIS OF THE GOVERNMENT FUNDS

Fire District No. 1 of the Township of Washington uses fund accounting to document compliance with finance-related legal requirements.

Governmental Funds

The primary objective of the District's governmental funds is to report on cash flows in and out during the period and the ending balances of the spendable resources. This information is useful to evaluate the performance of the District and to assess its future needs and available resources.

As of December 31, 2020, the combined balance of the governmental cash funds of Fire District No. 1 of the Township of Washington was approximately $11.32 million. This balance is approximately $9.56 higher than last year's combined governmental cash funds. The increase is due primarily to funds received from the 2020 General Obligation Bonds of $9.97 million.

The combined balance of the governmental funds of Fire District No. 1 of the Township of Washington was approximately $16.57 million. Unreserved fund balance amounted to approximately $1.08 million of that total. Reserved fund balance of $717,000 has been designated for subsequent year's expenditures.

The general fund is the main operating fund of Fire District No. 1 of the Township of Washington. At the end of 2020, the total fund balance of the general fund was approximately $7.37 million. Of this balance, approximately $1.08 million of it was unreserved.

During 2020 the general fund balance of Fire District No. 1 of the Township of Washington increased by approximately $646,000. The primary reasons for this increase is as follows:

- Increased in miscellaneous revenues and funds received for FEMA grant.

At the end of 2020, the District had a capital projects fund balance of approximately $9.19 million. Of this balance, approximately $9.19 million is restricted for capital projects.

During 2020 the capital projects fund balance of Fire District No. 1 of the Township of Washington increased by approximately $9.31. The primary reasons for this increase is as follows:

- Issuance of General Obligation Bonds of $9.97 million.

At the end of 2020, the District had a debt service fund balance of approximately $8,900. Of this balance, approximately $8,900 is restricted for debt service.

General Fund Budgetary Highlights

The 2020 Budget had a surplus in revenues and did not require the utilization of unrestricted surplus accumulated from prior years. The unused surplus becomes available for future budget periods as undesignated surplus in the General Fund.

The District had total actual revenues in excess of total budgeted revenues of approximately $297,000 in 2020. The Board anticipates in 2021 that actual revenues will exceed the budgeted revenues.

Overall, the District spent approximately $401,000 less than originally anticipated in the operating budget for 2020.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

As of December 31, 2020 Fire District No. 1 of the Township of Washington had invested in capital assets for government activities of approximately $10,182,596 (net of accumulated depreciation). Capital assets consist of land, apparatus in progress, firehouse improvements, fire apparatus, fire equipment, and office equipment. The District purchased approximately $837,000 of vehicles and equipment in 2020.

Additional information on Fire District No. 1 of the Township of Washington's capital assets can be found in Note 6 in the notes to the financial statements.

LONG-TERM OBLIGATIONS

As of December 31, 2020 the Fire District No. 1 of the Township of Washington had serial bonds payable outstanding in the amount of $10,310,000, of which $645,000 is due within one year.

Additionally, as of December 31, 2020 the Fire District No. 1 of the Township of Washington had capital leases outstanding in the amount of approximately $1.76 million, of which approximately $425,000 is due within one year.

ECONOMIC FACTORS AND NEXT YEARS BUDGET

In 2020, Fire District No. 1 of the Township of Washington was able to cover all of its appropriations through the fire tax levy and other revenues. In 2020 the fire tax levy amounted to 91% of total revenue collected.

Fire District No. 1 of the Township of Washington adopted their 2021 budget on January 7, 2021. The voters subsequently voted to approve the budget at the February election.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Fire District No. 1 of the Township of Washington's finances for all of those with an interest in the District's finances. Questions concerning any of the information provided in this report, or requests for additional financial information should be addressed to Fire District No. 1 of the Township of Washington, P.O. Box 653, Turnersville, New Jersey 08012.

Net other postemployment benefits (Note 8)	4,994,722
Net pension liability (Note 9)	7,583,644
Net length of service awards program liability (Note 10)	12,867,968
Total noncurrent liabilities	36,870,550
Total liabilities	39,051,080
Deferred inflows of resources:	
Deferred inflows related to other postemployment benefits (Note 8)	2,334,524
Deferred inflows related to pensions (Note 9)	2,220,223
Deferred inflows related investment in length of service award program (Note 10)	13,226
Bond and loan premium, net of accumulated amortization (Note 7)	671
Total deferred inflow of resources	4,568,644
Total liabilities and deferred inflow of resources	43,619,724
Net position:	
Investments in capital assets, net of related debt	(1,891,263)
Restricted for:	
Capital	9,186,139
Debt Service	8,907
New Jersey Unemployment	1,864
Unrestricted (Note 18)	(18,878,524)
Total net position	(11,572,877)
Total liabilities, deferred inflow of resources and net position	$ 32,046,847

Governmental Funds
Balance Sheet
December 31, 2020

	General Fund	Capital Projects Fund	Debt Service Fund	Totals
Assets:				
Current assets:				
Cash and cash equivalents	$ 1,936,157	$ 9,374,145	$ 8,907	$ 11,319,209
Due from others	34,034	-	-	34,034
Other receivables	172,720	-	-	172,720
Total current assets	2,142,911	9,374,145	8,907	11,525,963
Noncurrent assets:				
Investment in length of service awards program	5,566,632	-	-	5,566,632
Total noncurrent assets	5,566,632	-	-	5,566,632
Total assets	$ 7,709,543	$ 9,374,145	$ 8,907	17,092,595
Liabilities, equity and other credits:				
Accounts payable	$ 122,233	$ 15,286	$ -	$ 137,519
Accrued expenses	217,316	-	-	217,316
Due to others	-	172,720	-	172,720
Total liabilities	339,549	188,006	-	527,555
Fund balances:				
Restricted for:				
Capital	-	9,186,139	-	9,186,139
Length of service awards program	5,566,632	-	-	5,566,632
Debt Service	-	-	8,907	8,907
New Jersey Unemployment Trust Fund	1,864	-	-	1,864
Assigned for:				
Subsequent year's expenditures	717,000	-	-	717,000
Unassigned, reported in:				
General fund	1,084,498	-	-	1,084,498
Total fund balance	7,369,994	9,186,139	8,907	16,565,040
Total liabilities and fund balance	$ 7,709,543	$ 9,374,145	$ 8,907	
Amounts reported for governmental activities in the statement of net position (A-1) are different because:				
Prepaid insurance is reported in governmental funds as expenditures. However, in the statement of net position, the cost of those assets is expensed over the term of the policy as insurance expense.				40,782
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. The cost of the assets is $23,852,553 and the accumulated depreciation is $13,669,957.				10,182,596
Accrued interest payable and PERS and PFRS pension payable are not recorded in the fund financial statements due to the fact that payable is not due in the period.				(756,073)
Bond premiums are reported in the governmental funds as revenue in the year the bonds are issued. The bond premium cost is $54,659 and the accumulated amortization is $54,659.				(671)
Deferred outflows and inflows of resources related to pensions, net other post employment benefits liability, net length of service awards program liability and deferred charges or credits on debt refundings are applicable to future reporting periods and, therefore, are not reported in the funds.				335,621
Long-term liabilities are not due and payable in the current period and are therefore not reported as liabilities in the funds.				(37,940,172)
Net position of governmental activities				$ (11,572,877)

The accompanying notes are an integral part of these financial statements.

FIRE DISTRICT NO. 1 OF THE TOWNSHIP OF WASHINGTON
Reconciliation of the Statement of Revenues,
Expenditures and Changes in Fund Balance in
the Governmental Funds to the Statement of Activities
December 31, 2020

Total net changes in Fund Balance-Governmental Funds (B-2)			$ 9,964,435
Amounts reported for governmental activities in the statement of activities (A-2) are different because:			
Capital Outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.			
	Capital Outlays - General Fund	$ 249,289	
	Capital Asset Adjustment	(122,702)	
	Depreciation expense	(804,049)	
			(677,462)
Prepaid insurance is reported in governmental funds as expenditures. However, in the statement of net position, the cost of those assets is expensed over the term of the policy as insurance expense.			
	Prior year	(4,311)	
	Current year	40,782	
			36,471
Length of service awards program contribution is not reported in governmental funds as expenditures. However, in the statement of net position, the expense is equal to the amount of contributions to the volunteers accounts as determined by the benefit terms. Change in value of LOSAP investments is not a revenue in the government wide financial statements as it is payable to the volunteers in accordance with the plan benefits.			
	Length of service awards program expense	(659,584)	
	District contribution to length of service awards program	(413,479)	
	Appreciation in fair value of investments	(161,721)	
	Administrative fees	6,030	
	Additional Contributions	15,106	
	Participant withdrawals	155,277	
			(1,058,371)
Bond premiums are reported in the governmental funds as revenue in the year the bonds are issued. However, on the statement of activities, the costs are amortized over the life of the bonds.			1,322
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.			330,000
Repayment of capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.			554,654
Accrual of interest on capital leases and bonds is not an expenditure in the governmental funds, but the adjustment is charged to expense and is reported in the statement of activities.			
	Prior year	59,638	
	Current year	(108,122)	
			(48,484)

The accompanying notes are an integral part of these financial statements.

FIRE DISTRICT NO. 1 OF THE TOWNSHIP OF WASHINGTON
Reconciliation of the Statement of Revenues,
Expenditures and Changes in Fund Balance in
the Governmental Funds to the Statement of Activities
December 31, 2020

The proceeds from the issuance of bonds provide current financial resources and are reported in this fund financial statement, but they are presented as liabilities in the statement of net position.			(9,970,000)
District other postemployment benefit contributions are reported as expenditures in the govermental funds when made. However, they are reportec as deferred outflows of resources in the Statement of Net Position because the reported net other postemployment benefit liability is measured a year before the District's report date. Other post employment expense, which is the change in the net other postemployment benefit liability adjusted for changes in deferred outflows and inflows of resources related to other postemployment benefits is reported in the Statement of Activities.			
	Other postemployment benefit credit	7,603	
			7,603
District pension contributions are reported as expenditures in the govermental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability is measured a year before the District's report date. Pension expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities.			
	Pension expense	(168,914)	
			(168,914)
In the statement of activities, certain operating expenses, e.g., compensated absences (sick leave) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used, essentially, the amounts actually paid. This year, the increase in sick leave paid was $20,125			(20,125)
Changes in net position of governmental activities			$ (1,048,871)

The accompanying notes are an integral part of these financial statements.

FIRE DISTRICT NO. 1 OF THE DISTRICT OF WASHINGTON
Notes to Financial Statements
For the year ended December 31, 2020

NOTE 1: GENERAL INFORMATION

A. Description of Reporting Entity

Fire District No. 1 of the Township of Washington is a political subdivision of the District of Washington, County of Gloucester, State of New Jersey. A board of five commissioners oversees all of the operations of the Fire District. The length of each commissioner's term is three years with the annual election held the first Thursday of March.

Fire Districts are governed by the *N.J.S.A. 40A: 14-70* et al. and are taxing authorities charged with the responsibility of providing the resources necessary to provide fire fighting services to the residents within its territorial location.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB *Codification of Governmental Accounting and Financial Reporting Standards*, is whether:

- the organization is legally separate (can sue or be sued in their own name);
- the District holds the corporate powers of the organization;
- the District appoints a voting majority of the organization's board;
- the District is able to impose its will on the organization;
- the organization has the potential to impose a financial benefit/burden on the District;
- there is a fiscal dependency by the organization on the District.

There were no additional entities required to be included in the reporting entity under the criteria as described above. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

B. Accounting Records

The official accounting records of the Fire District No. 1 of the Township of Washington are maintained in the office of the District.

C. Minutes

Minutes were recorded for meetings and contained approvals for disbursements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The financial statements of the Fire District conform to generally accepted accounting principles (GAAP) applicable to governmental funds of state and local governments in accordance with the provisions of N.J.A.C. 5:31-7-1. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

A. Basis of Presentation (continued)

The district-wide financial statements report using the economic resources measurement focus and the accrual basis of accounting generally includes the reclassification or elimination of internal activity (between or within funds). Fiduciary fund financial statements also report using the same focus. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of the related cash flows. The tax revenues are recognized in the year for which they are levied (see Note 2 R) while grants are recognized when grantor eligibility requirements are met.

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon thereafter, within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred.

B. Fund Accounting

The accounts of the district are maintained in accordance with the principles of fund accounting to ensure observance of limitations and restrictions on the resources available. The principles of fund accounting require that resources be classified for accounting and reporting purposes into funds or account groups in accordance with activities or objectives specified for the resources. Each fund is a separate accounting entity with a self-balancing set of accounts.

An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn is divided into separate "fund types."

Governmental Funds:

General Fund

The General Fund is the general operating fund of the Fire District and is used to account for the inflows and outflows of financial resources. The acquisition of certain capital assets, such as fire fighting apparatus and equipment, is accounted for in the General Fund when it is responsible for the financing of such expenditures.

Capital Projects Fund

The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities such as firehouses and fire-fighting apparatus. Generally, the financial resources of the Capital Projects Fund are derived from the issuance of debt or by the reservation of fund balance, which must be authorized by the voters as a separate question of the ballot either during the annual election or at a special election.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Fund Accounting (continued)

Debt Service Fund

The Debt Service Fund is used to account for resources that will be used to service general long-term debt.

C. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The Government-Wide financial statements (A-1 and A-2) include the statement of net position and the statement of activities. These statements report financial information of the District as a whole excluding the fiduciary activities. All inter-fund activity, excluding the fiduciary funds, has been eliminated in the statement of activities. Individual funds are not displayed but the statements distinguish governmental activities as generally supported through taxes and user fees.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or component unit are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function, segment, or component unit. Program revenues include charges to customers who purchase, use or directly benefit from goods or services provided by a given function, segment or component unit. Program revenues also include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function, segment, or component unit. Taxes and other items not properly included among program revenues are reported instead as general revenues. The District does not allocate general government (indirect) expenses to other functions.

Net position is restricted when constraints placed on it is either externally imposed or imposed by constitutional provisions or enabling legislation. Internally imposed designations of resources are not presented as restricted net position. When both restricted and unrestricted resources are available for use, generally it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed.

Separate financial statements are provided for governmental funds, proprietary funds, fiduciary funds and similar component units, and major component units. However, the fiduciary funds are not included in the district-wide statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Fund Financial Statements

The fund financial statements provide detail of the governmental funds.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and private purpose trust funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net position.

The modified accrual basis of accounting is used for measuring financial position and operating results of all governmental fund types, private purpose trust funds and agency funds. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. State equalization monies are recognized as revenue during the period in which they are appropriated. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recognized in the accounting period in which the fund liability is incurred, except for principal and interest on general long-term debt which are recorded when due.

In its accounting and financial reporting, the Fire District No. 1 of the Township of Washington follows the pronouncements of the Governmental Accounting Standards Board (GASB) and its predecessor organizations issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements.

E. Budgets and Budgetary Accounting

The Fire District must adopt an annual budget in accordance with N.J.S.A. 40A: 14-78.1 et al.

The fire commissioners must introduce and adopt the annual budget no later than sixty days prior to the annual election. At introduction, the commissioners shall fix the time and place for a public hearing on the budget and must advertise the time and place at least ten days prior to the hearing in a newspaper having substantial circulation in the fire district. The public hearing must not be held less than twenty-eight days after the date the budget was introduced. After the hearing has been held, the fire commissioners may, by majority vote, adopt the budget.

Amendments may be made to the Fire District budget in accordance with N.J.S.A 40A: 14-78.3.

Subsequent to the adoption of the Fire District budget, the amount of money to be raised by taxation in support of the Fire District budget must appear on the ballot for the annual election for approval of the legal voters.

Fire Districts have a prescribed budgetary basis to demonstrate legal compliance. However, budgets are adopted on principally the same basis of accounting utilized for the preparation of the Fire Districts general-purpose financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

F. Encumbrances

Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances, other than in the special revenue fund, are reported as reservations of fund balances at year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Encumbered appropriations carry over into the next fiscal year. An entry will be made at the beginning of the next year to increase the appropriation reflected in the adopted budget by the outstanding encumbrance amounts as of the current year-end. The District did not have any encumbrances at December 31, 2020.

G. Cash and Cash Equivalents

Cash and cash equivalents include petty cash, change funds and cash in banks. All certificates of deposit are recorded as cash regardless of the date of maturity.

Fire districts are required by N.J.S.A. 40A: 5-14 to deposit public funds in a bank or trust company having its place of business in the State of New Jersey organized under the laws of the United States or of the State of New Jersey or with the New Jersey Cash Management Fund. N.J.S.A. 40A: 5-15.1 provides a list of investments that may be purchased by fire districts.

N.J.S.A. 17:9-42 requires New Jersey governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the provision of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in the State of New Jersey.

Public funds are defined as the funds of any governmental unit. Public depositories include savings and loan institutions, banks (both State and National banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value of five percent of its average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units.

H. Prepaid Expenses

Prepaid expenses recorded on the government-wide financial statements represent payments made to vendors for services that will benefit periods beyond December 31, 2020.

In the governmental fund financial statements, however, payments for prepaid items are fully recognized as expenditures in the year of payment. No asset for the prepayment is created, and no expenditure allocation to future accounting periods is required (non-allocation method). This is consistent with the basic governmental concept that only expendable financial resources are reported by a specific fund.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

I. Debt Limitation

N.J.S.A.40A:14-84 governs procedures for the issuance of any debt related to such purchases. In summary, fire districts may purchase fire fighting apparatus, equipment, land and buildings to house such property in an amount not exceeding 5 mills on the dollar of the last assessed valuation of property within the district upon the approval of the legal voters. Debt may be issued up to $60,000 or 2 percent of the assessed valuation of property, whichever is larger.

J. Capital Assets

Capital assets, which include land, building, improvements, and equipment, are reported in the Government-Wide Financial Statements. Capital assets are recorded at historical cost or estimated historical cost if actual cost is not available. Donated assets are valued at their estimated fair value on the date donated. The District has set capitalization thresholds for reporting capital assets of $2,000.

Depreciation is recorded on the straight-line method (with no deprecation applied to the first year of acquisition) over the useful lives of the assets as follows:

Land Improvements	40 Years
Building and Improvements	5 to 30 Years
Furniture and Equipment	5 to 15 Years
Vehicles and Apparatus	5 to 25 Years

K. Deferred Outflows and Deferred Inflows of Resources

The statement of net position reports separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources, reported after total assets, represents a reduction of net position that applies to a future period(s) and will be recognized as an outflow of resources (expense) at that time. Deferred inflows of resources, reported after total liabilities, represents an acquisition of net position that applies to a future period(s) and will be recognized as an inflow of resources (revenue) at that time.

Transactions are classified as deferred outflows of resources and deferred inflows of resources only when specifically prescribed by the Governmental Accounting Standards Board (GASB) standards. The Fire District is required to report the following as deferred outflows of resources and deferred inflows of resources: defined benefit pension plans and postemployment benefit plans.

L. Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied and is recorded as a liability until the revenue is both measurable and the Fire District is eligible to realize the revenue.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

M. Inventory, Materials and Supplies

The inventory on hand at any time is small. Accordingly, purchases are charged directly to fixed assets or to maintenance costs, as applicable.

N. Interfund Receivable/Payable

Short-term interfund receivables / payables (internal balances) represent amounts that are owed, other than charges for goods or services rendered to / from a particular fund within the Fire District, and that are due within one year. Such balances are eliminated in the statement of net position to minimize the grossing up of internal balances.

O. Compensated Absences

Fire District employees are entitled to vacation and sick leave. Unused vacation may be accumulated with a 90 hours threshold for firemen and a 10 day threshold for administrative staff. Unused sick time will be paid upon retirement to any employee with a minimum of ten years at a rate of thirty percent of their accrued sick time. Benefits paid in any future year will be calculated according to formulas outlined in the Fire District's agreement with the employee's union and included in the current year's budget.

The entire compensated absence liability, including the employer's share of applicable taxes, is reported on the government-wide financial statements. The current portion is the amount estimated to be used in the following year. Expenditures are recognized in the governmental funds as payments come due each period, for example, as a result of employee resignations and retirements. Compensated absences not recorded at the fund level represent a reconciling item between the fund level and government-wide presentations.

P. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner, and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits, contractually required pension contributions, and length of service awards program contributions that will be paid from governmental funds, are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable available financial resources. Bonds are recognized as a liability on the governmental fund financial statements when due.

Q. Revenues and Expenditures

Revenues are recorded when they are determined to be both available and measurable. Generally, fees and other non-tax revenues are recognized when qualifying expenditures are incurred.

Expenditures are recorded when the related liability is incurred, if measurable, except for un-matured interest on general long-term debt, which is recognized when due.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

R. Fire District Taxes

Upon proper certification to the assessor of the municipality in which the Fire District is located, the assessor shall assess the amount of taxes to be realized in support of the Fire District's budget in the same manner as all other municipal taxes. The collector or treasurer of the municipality shall then pay over to the treasurer or custodian of funds of the Fire District the taxes assessed in accordance with the following schedule: on or before April 1, and amount equaling 21.25% of all monies assessed, on or before July 1, an amount equaling 22.5% of all monies assessed, on or before October 1, an amount equaling 25% of all monies assessed and on or before December 31 an amount equal to the difference between the total of all monies assessed and the total of monies previously paid over.

S. Fund Equity

In accordance with Government Accounting Standards Board 54, Fund Balance Reporting and Governmental Fund Type Definitions, the Fire District No. 1 of the Township of Washington classifies governmental fund balances as follows:

- Non-spendable – includes fund balance amounts that cannot be spent either because it is not in spendable form or because legal or contractual constraints.
- Restricted – includes fund balance amounts that are constrained for specific purposes which are externally imposed by external parties, constitutional provision or enabling legislation.
- Committed – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making District and does not lapse at year-end.
- Assigned – includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund Balance may be assigned by the Business Administrator.
- Unassigned – includes balance within the General Fund which has not been classified within the above mentioned categories and negative fund balances in other governmental funds

Reserves represent those portions of fund equity not available for appropriation for expenditure or legally segregated for a specific future use. Designated fund balances represent plans for future use of financial resources.

T. Net Position

Net position, represents the difference between summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources. Net position is classified in the following three components:

- Net Investment in Capital Assets – This component represents capital assets, net of accumulated depreciation, net of outstanding balances of borrowings used for acquisition, construction, or improvement of those assets.
- Restricted – Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

T. Net Position (continued)

- Unrestricted – Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

U. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

V. Interfund Activity

Interfund receivables and payables that arise from transactions between funds are recorded by all funds affected by such transactions in the period in which the transaction is executed. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources / uses in governmental funds. Reimbursements from funds responsible for particular expenditures / expenses to the funds that initially paid for them are not presented on the financial statements.

W. Unrealized Gains and Losses

Governmental Accounting Standards Board (GASB) has established GASB-31, which requires public agencies to report the financial effect of all unrealized gains and losses on invested funds. As of December 31, 2020, unrealized gains and losses for the Fire District were not considered to be material to the financial statements taken as a whole, and accordingly, have not been reflected in the financial statements.

X. Fair Value Measurement

The District categorizes its assets and liabilities measured at fair value into a three-level hierarchy based on the priority of the inputs to the valuation technique used to determine fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level I) and the lowest priority to unobservable inputs (Level III). If the inputs used in the determination of the fair value measurement fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement.

Assets and liabilities valued at fair value are categorized based on the inputs to the valuation techniques as follows:

Level I – Inputs that utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the District has the ability to access. Fair values for these instruments are estimated using pricing models or quoted prices of securities with similar characteristics.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level II – Inputs that include quoted market prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level III – Inputs that are unobservable inputs for the asset or liability, which are typically based on an entity's assumptions, as there is little, if any, related market activity. Fair values for these instruments are estimated using appraised values. Subsequent to initial recognition, the District may re-measure the carrying value of assets and liabilities measured on a nonrecurring basis to fair value. Adjustments to fair value usually result when certain assets are impaired. Such assets are written down from their carrying amounts to their fair value.

The following methods and assumptions were used by the District in estimating the fair value of its financial instruments:

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Fixed Account Investment Contract: Valued at the contract's market value as reported by the insurance company.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table in Note 4 sets forth by level, within the fair value hierarchy, the District's assets at fair value as of December 31, 2020.

Y. Impact of Recently Issued Accounting Principles

Adopted Accounting Pronouncements

The following GASB Statements became effective for the fiscal year ended December 31, 2020:

Statement No. 84, Fiduciary Activities. The Statement intends to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. To that end, Statement No. 84 establishes criteria for identifying fiduciary activities of all state and local governments and clarifies whether and how business-type activities should report their fiduciary activities.

As a result of the implementation of Statement No. 84, fund balance at January 1, 2020 has been restated. See Note 19.

Recently Issued Accounting Pronouncements

The GASB has issued the following Statements which will become effective in future years as shown below:

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Statement No. 87, Leases. Statement No. 87 establishes a single approach to accounting for and reporting leases by state and local governments. The GASB based the new standard on the principle that leases are financing of the right to use an underlying asset. Statement No. 87 is effective for reporting periods beginning after June 15, 2021. Management has not yet determined the potential impact on the District's financial statements.

NOTE 3: CASH AND CASH EQUIVALENTS

The Fire District is governed by the deposit and investment limitations of New Jersey state law. The deposits and investments held at December 31, 2020, and reported at fair value are as follows:

Deposits:	
Demand Deposits	$ 11,319,309
Total Deposits	$ 11,319,309

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the District's deposits may not be returned. The District does not have a deposit policy for custodial credit risk. As of December 31, 2020, the District's bank balance of $11,418,383 was insured or collateralized as follows:

Insured	$ 999,170
Collaterized not in the District's name (New Jersey Cash Management Fund)	278,471
Collaterized in the District's name under GUDPA	10,140,742
Total	$ 11,418,383

NOTE 4: INVESTMENTS

A. Custodial Credit Risk

For an investment, custodial credit risk is a risk that, in the event of the failure of the counterparty, the Fire District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Fire District, and are held by either the counterparty or the counterparty's trust department or agent but not in the Fire District's name. All of the District's investments are held in the name of the District and are collateralized by GUDPA.

NOTE 4: INVESTMENTS (continued)

B. Investment Interest Rate Risk

Interest rate risk is the risk that changes in interest rates that will adversely affect the fire value of an investment. The Fire District has no formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Maturities of investments held at December 31, 2020, are provided in the below schedule.

C. Investment Credit Risk

The Fire District has no investment policy that limits its investment choices other than the limitation of state law as follows:

- Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America;
- Government money market mutual funds;
- Any obligation that a federal agency or federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligations bear a fixed rate of interest not dependent on any index or other external factor;
- Bonds or other obligations of the Fire District or bonds or other obligations of the local unit or units within which the Fire District is located;
- Bonds or other obligations, having a maturity date of not more than 397 days from the date of purchase, approved by the Division of Investment in the Department of Treasury for investment by the Fire District;
- Local Government investment pools;
- Deposits with the State of New Jersey Cash Management Fund established pursuant to section 1 of P.L. 1977, c.281; or
- Agreements for the repurchase of fully collateralized securities.

The following table sets forth by level, within the value hierarchy, the District's assets at fair value at December 31, 2020.

	Assets at Fair Value as of December 31, 2020			
	Level I	*Level II*	*Level III*	*Total*
Length of service award program:				
Fixed account investment contract	$ 5,566,632	$ -	$ -	$ 5,566,632
Total LOSAP at fair value	$ 5,566,632	$ -	$ -	$ 5,566,632

NOTE 5: DUE FROM OTHERS

As of December 31, 2020, accounts receivables consisted of the following:

Inspira fee receivables	$ 13,052
Interlocal agreement receivable	20,982
Total	$ 34,034

NOTE 6: CAPITAL ASSETS

N.J.S.A. 40A: 14-84 governs the procedures for the acquisition of property and equipment for the fire districts, and the N.J.S.A. 40A: 14-85-87 governs procedures for the issuance of any debt related to such purchases. In summary, fire districts may purchase fire fighting apparatus, equipment, land, and buildings to house such property in an amount not exceeding five mills on the dollar of the least assessed valuation of property within the district upon the approval of the legal voters. Debt may be issued up to $60,000 or two percent of the assessed valuation of property, whichever is larger.

Capital assets consisted of the following at December 31, 2020:

	Balance 12/31/19	Additions	Adjustments	Retirements	Balance 12/31/20
Governmental Activities:					
Capital assets that are not being depreciated:					
Land	$ 658,015	$ -	$ -	$ -	$ 658,015
Apparatus in progress	590,000	-	(590,000)	-	-
Total capital assets that are not being depreciated	1,248,015	-	(590,000)	-	658,015
Capital assets being depreciated:					
Building and improvements	11,693,732	149,470	-	-	11,843,202
Furniture and equipment	4,226,286	99,819	-	-	4,326,105
Vehicle and apparatus	7,118,933	587,298	-	(681,000)	7,025,231
Total capital assets being depreciated	23,038,951	836,587	-	(681,000)	23,194,538
Less: accumulated depreciation:					
Building and improvements	(6,397,093)	(287,607)	-	-	(6,684,700)
Furniture and equipment	(3,397,887)	(188,735)	-	-	(3,586,622)
Vehicle and apparatus	(3,631,928)	(327,707)	-	561,000	(3,398,635)
Total accumulated depreciation	(13,426,908)	(804,049)	-	561,000	(13,669,957)
Total capital assets being depreciated net of accumulated depreciation	9,612,043	32,538	-	(120,000)	9,524,581
Total capital assets	$ 10,860,058	$ 32,538	$ (590,000)	$ (120,000)	$ 10,182,596

NOTE 7: LONG-TERM OBLIGATIONS

During the year ended December 31, 2020, the following changes occurred in long-term obligations:

	Balance 12/31/2019	Accrued/ increases	(Retired)/ (decreases)	Balance 12/31/2020	Due within One Year
Governmental activities:					
General serial bonds	$ 670,000	$ 9,970,000	$ (330,000)	$ 10,310,000	$ 645,000
Unamortized bond premium	1,993	-	(1,993)	-	-
Obligations under capital lease	2,318,513	-	(554,654)	1,763,859	424,622
Net pension liability	6,479,216	1,104,428	-	7,583,644	-
Net other postemployment benefit liability	3,633,869	1,360,853	-	4,994,722	-
Net length of service awards program liability	12,205,043	662,925	-	12,867,968	-
Compensated absences	399,854	160,118	-	559,972	139,993
Total	$25,708,488	$13,258,324	$ (886,647)	$ 38,080,165	$ 1,209,615

A. Bonds Payable

Bonds and loans are authorized in accordance with State law by the voters of the Fire District through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the Fire District are general obligation bonds.

On August 3, 2006, the Fire District issued $2,500,000 general obligation bonds at interest rates varying from 4% to 5% for various construction and renovation projects. The final maturity of these bonds is August 1, 2021. The bonds will be paid from property tax revenue.

On August 27, 2020, the Fire District issued $9,970,000 general obligation bonds at interest rates varying from 1% to 2% for various construction and renovation projects. The final maturity of these bonds is May 1, 2040. The bonds will be paid from property tax revenue.

Principal and interest due on bonds outstanding is as follows:

For the year ended December 31,	Principal	Interest	Total
2021	645,000	181,853	826,853
2022	395,000	137,683	532,683
2023	405,000	133,683	538,683
2024	415,000	129,583	544,583
2025	425,000	125,383	550,383
2026-2030	2,320,000	549,102	2,869,102
2031-2035	2,685,000	377,730	3,062,730
2036-2040	3,020,000	143,622	3,163,622
Total	$ 10,310,000	$ 1,778,639	$ 12,088,639

NOTE 7: LONG-TERM OBLIGATIONS (continued)

B. Capital Leases Payable

The Fire District is leasing fire trucks totaling $3,340,898 under capital leases. All capital leases are for a term of three to seven years. The following is a schedule of the future minimum lease payments under these capital leases, and the present value of the net minimum lease payments at December 31, 2020.

For the year ended December 31,	Principal	Interest	Total
2021	$ 424,622	$ 43,698	$ 468,320
2022	326,335	33,356	359,691
2023	334,392	25,299	359,691
2024	342,655	17,037	359,692
2025	80,819	8,564	89,383
2026-2028	255,036	13,116	268,152
Total	$ 1,763,859	$ 141,070	$ 1,904,929

NOTE 8: POST EMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS

General Information about the OPEB Plan

The State Health Benefit Local Government Retired Employees Plan (the Plan) is a cost-sharing multiple-employer defined benefit other postemployment benefit (OPEB) plan with a special funding situation. It covers employees of local government employers that have adopted a resolution to participate in the Plan. For additional information about the Plan, please refer to the State of New Jersey (the State), Division of Pensions and Benefits' (the Division) Comprehensive Annual Financial Report (CAFR), which can be found at https://www.state.nj.us/treasury/pensions/financial-reports.shtml.

The Plan provides medical and prescription drug to retirees and their covered dependents of the participating employers. Under the provisions of Chapter 88, P.L 1974 and Chapter 48, P.L. 1999, local government employers electing to provide postretirement medical coverage to their employees must file a resolution with the Division. Under Chapter 88, local employers elect to provide benefit coverage based on the eligibility rules and regulations promulgated by the State Health Benefits Commission. Chapter 48 allows local employers to establish their own age and service eligibility for employer paid health benefits coverage for retired employees. Under Chapter 48, the employer may assume the cost of postretirement medical coverage for employees and their dependents who: 1) retired on a disability pension; or 2) retired with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 3) retired and reached the age of 65 with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 4) retired and reached age 62 with at least 15 years of service with the employer. Further, the law provides that the employer paid obligations for retiree coverage may be determined by means of a collective negotiations agreement.

NOTE 8: POST EMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS (continued)

In accordance with Chapter 330, P.L. 1997, which is codified in N.J.S.A 52:14-17.32i, the State provides medical and prescription coverage to local police officers and firefighters, who retire with 25 years of service or on a disability from an employer who does not provide postretirement medical coverage. Local employers were required to file a resolution with the Division in order for their employees to qualify for State-paid retiree health benefits coverage under Chapter 330. The State also provides funding for retiree health benefits to survivors of local police officers and firefighters who die in the line of duty under Chapter 271, P.L.1989.

Pursuant to Chapter 78, P.L, 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

Basis of Presentation

The schedule of employer and nonemployer allocations and the schedule of OPEB amounts by employer and nonemployer (collectively, the Schedules) present amounts that are considered elements of the financial statements of its participating employers or the State as a nonemployer contributing entity. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of the participating employers or the State. The accompanying Schedules were prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of the Plan to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

Allocation Methodology

GASB Statement No. 75 requires participating employers in the Plan to recognize their proportionate share of the collective net OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective OPEB (benefit) expense. The special funding situation's and nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB (benefit) expense are based on separately calculated total OPEB liabilities. For the special funding situation and the nonspecial funding situation, the total OPEB liabilities for the year ended June 30, 2020 were $5,512,481,278 and $12,598,993,950, respectively. The nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB (benefit) expense are further allocated to employers based on the ratio of the plan members of an individual employer to the total members of the Plan's nonspecial funding situation during the measurement period July 1, 2019 through June 30, 2020. Employer and nonemployer allocation percentages have been rounded for presentation purposes; therefore, amounts presented in the schedule of OPEB amounts by employer and nonemployer may result in immaterial differences.

NOTE 8: POST EMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS (continued)

Net OPEB Liability

The total OPEB liability as of June 30, 2020 was determined by an actuarial valuation as of June 30, 2019, which was rolled forward to June 30, 2020. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation Rate	2.50%
Salary Increases*:	
Public Employees' Retirement System (PERS)	
Initial Fiscal Year Applied	
Rate through 2026	2.00% to 6.00%
Rate thereafter	3.00% to 7.00%
Police and Firemen's Retirement System (PFRS)	
Rate for all future years	3.25% to 15.25%
Mortality:	
PERS	Pub-2010 General classification headcount weighted mortality with fully generational mortality improvement projections from the central year using Scale MP-2020
PERS	Pub-2010 Safety classification headcount weighted mortality with fully generational mortality improvement projections from the central year using Scale MP-2020

* - Salary Increases are based on the defined benefit plan that the member is enrolled in and his or her age.

OPEB Obligation and OPEB (benefit) Expense - The State's proportionate share of the total Other Post-Employment Benefits Obligations, attributable to the District's as of June 30, 2020 was $4,994,722. The District's proportionate share was $0.

The OPEB Obligation was measured as of June 30, 2020, and the total OPEB Obligation used to calculate the OPEB Obligation was determined by an actuarial valuation as of July 1, 2019, which was rolled forward to June 30, 2020. The State's proportionate share of the OPEB Obligation associated with the District was based on projection of the State's long-term contributions to the OPEB plan associated with the District relative to the projected contributions by the State associated with all participating Municipalities, actuarially determined. At June 30, 2020, the State proportionate share of the OPEB Obligation attributable to the District was 0.02783%, which was an increase of 0.00100% from its proportion measured as of June 30, 2019.

For the fiscal year ended June 30, 2020, the State of New Jersey recognized an OPEB (benefit) expense in the amount of $83,520 for the State's proportionate share of the OPEB (benefit) expense attributable to the District. This OPEB (benefit) expense was based on the OPEB plans June 30, 2020 measurement date.

NOTE 8: POST EMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS (continued)

Actuarial assumptions used in the July 1, 2019 valuation were based on the results of the PFRS and PERS experience studies prepared for July 1, 2013 to June 30, 2018 and July 1, 2014 to June 30, 2018, respectively.

100% of active members are considered to participate in the Plan upon retirement.

Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend rate is initially 5.6% and decreases to a 4.5% long-term trend rate after seven years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rates for fiscal year 2021 through 2022 are reflected. The rates used for 2023 and 204 are 21.83% and 18.53%, respectively, trending to 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.00% and decreases to a 4.5% long-term trend rate after seven years.

Discount Rate

The discount rate for June 30, 2020 was 2.21%. This represents the municipal bond return rate as chosen by the State. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

Sensitivity of Net OPEB Liability to Changes in the Discount Rate

The following presents the collective net OPEB liability of the participating employers as of June 30, 2020, calculated using the discount rate as disclosed above as well as what the collective net OPEB liability would be if it was calculated using a discount rate that is 1-percentage point lower or 1-percentage-point higher than the current rate:

	1% Decrease	Healthcare Cost Trend Rate	1% Increase
State of New Jersey's Proportionate Share of Total OPEB Obligations Associated with The District	$ 4,133,138	$ 4,994,722	$ 6,122,979
State of New Jersey's Total Nonemployer OPEB Liability	14,850,840,718	17,946,612,946	22,000,569,109

Sensitivity of Net OPEB Liability to Changes in the Healthcare Trend Rate:

The following presents the net OPEB liability as of June 30, 2020, calculated using the healthcare trend rate as disclosed above as well as what the net OPEB liability would be if it was calculated using a healthcare trend rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

NOTE 8: POST EMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS (continued)

	1% Decrease	Healthcare Cost Trend Rate	1% Increase
State of New Jersey's Proportionate Share of Total OPEB Obligations Associated with The District	$ 4,133,138	$ 4,994,722	$ 6,122,979
State of New Jersey's Total Nonemployer OPEB Liability	14,850,840,718	17,946,612,946	22,000,569,109

Additional Information – The following is a summary of the collective balances of the local group at June 30, 2020:

Collective Balances at December 31, 2020 and December 31, 2019

	12/31/2020	12/31/2019
Actuarial valuation date (including roll forward)	June 30, 2020	June 30, 2019
Collective Deferred Outflows of Resources	$ 3,168,345,589	$ 11,158,226
Collective Deferred Inflows of Resources	7,333,043,620	8,761,825,481
Collective Net OPEB Liability	17,946,612,946	13,546,071,100
District's Portion	0.027831%	0.026826%

The collective amounts reported as a deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30:	
2021	$ (964,720,007)
2022	(965,594,678)
2023	(967,008,484)
2024	(968,300,349)
2025	(660,258,014)
Thereafter	361,183,501
	$ (4,164,698,031)

Changes in Proportion

The previous amounts do not include employer specific deferred outflows of resources and deferred inflow of resources related to the changes in proportion. These amounts should be recognized (amortized) by each employer over the average remaining service lives of all plan members, which is 7.87, 8.05, 8.14 and 8.04 years for the 2020, 2019, 2018 and 2017 amounts, respectively.

NOTE 8: POST EMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS (continued)

Plan Membership

At June 30, 2019, the Program membership consisted of the following:

	June 30, 2019
Active Plan Members	62,547
Retirees Currently Receiving Benefits	30,614
Total Plan Members	93,161

Changes in the Total OPEB Liability

The change in the State's Total OPEB liability for the fiscal year ended June 30, 2020 (measurement date June 30, 2019) is as follows:

Service Cost	$	605,949,339
Interest on the Total OPEB Liability		497,444,533
Change of Benefit Terms		1,034,142
Differences Between Expected and Actual Experience		541,506,395
Changes of Assumptions		3,074,968,821
Contributions From the Employer		(292,404,377)
Contributions From Non-Employer Contributing Entity		(35,011,940)
Net Investment Income		(2,858,334)
Administrative Expense		9,913,267
Net Change in Total OPEB Liability		4,400,541,846
Total OPEB Liability (Beginning)		13,546,071,100
Total OPEB Liability (Ending)	$	17,946,612,946

Note 9. Pension Obligations

A. Public Employees' Retirement System (PERS)

Plan Description - The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PERS, please refer to Division's Comprehensive Annual Financial Report (CAFR) which can be found at http://www.state.nj.us/treasury/pensions/annual-reports.shtml.

The vesting and benefit provisions are set by *N.J.S.A. 43:15A*. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service.

Note 9. Pension Obligations (continued):

A. Public Employees' Retirement System (PERS) (continued):

The following represents the membership tiers for PERS:

Tier	Definition
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 or more years of service credit before age 62 and tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Basis of Presentation - The schedules of employer and nonemployer allocations and the schedules of pension amounts by employer and nonemployer (collectively, the Schedules) present amounts that are considered elements of the financial statements of PERS or its participating employers. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of PERS or the participating employers. The accompanying Schedules were prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of PERS to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

Contributions - The contribution policy for PERS is set by *N.J.S.A. 43:15A* and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For the fiscal year 2020, the State's pension contribution was less than the actuarial determined amount. The local employers' contribution amounts are based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30,

Note 9. Pension Obligations (continued):

A. Public Employees' Retirement System (PERS) (continued):

2012 and will be adjusted by the rate of return on the actuarial value of assets. For the year ended December 31, 2020, the District's contractually required contribution to PERS plan was $26,752.

Components of Net Pension Liability - At December 31, 2020, the District's proportionate share of the PERS net pension liability was $398,789. The net pension liability was measured as of June 30, 2020. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of July 1, 2018, which was rolled forward to June 30, 2020. The District's proportion of the net pension liability was based on the District's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2020. The District's proportion measured as of June 30, 2020, was 0.00245% which was an increase of 0.00003% from its proportion measured as of June 30, 2019.

Balances at December 31, 2020 and December 31, 2019

	12/31/2020	12/31/2019
Actuarial valuation date (including roll forward)	June 30, 2020	June 30, 2019
Deferred Outflows of Resources	$ 48,042	$ 68,296
Deferred Inflows of Resources	178,227	188,192
Net Pension Liability	398,789	435,631
Fire District's portion of the Plan's total Net Pension Liability	0.00245%	0.00242%

Pension Expense and Deferred Outflows/Inflows of Resources - At December 31, 2020, the District's proportionate share of the PERS expense, calculated by the plan as of the June 30, 2020 measurement date is $199. This expense is not recognized by the District because of the regulatory basis of accounting as described in Note 1, but as previously mentioned the District contributed $26,752 to the plan in 2020.

At December 31, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between Expected and Actual Experience	$ 7,261	$ 1,410
Changes of Assumptions	12,937	166,977
Net Difference between Projected and Actual Earnings on Pension Plan Investments	13,631	-
Changes in Proportion and Differences between Fire District Contributions and Proportionate Share of Contributions	14,213	9,840
	$ 48,042	$ 178,227

Note 9. Pension Obligations (continued):

A. Public Employees' Retirement System (PERS) (continued):

The District will amortize the above sources of deferred outflows and inflows related to PERS over the following number of years:

	Deferred Outflow of Resources	Deferred Inflow of Resources

June 30, 2020	5.16	5.16

Note 9. Pension Obligations (continued):

A. Public Employees' Retirement System (PERS) (continued):

The following is a summary of the deferred outflows of resources and deferred inflows of resources related to PERS that will be recognized in future periods:

Year Ending Dec 31,	Amount
2021	$ (14,908)
2022	(54,566)
2023	(28,266)
2024	(15,351)
2025	(17,094)
	$ (130,185)

Actuarial Assumptions - The total pension asset/(liability) as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuations used the following actuarial assumptions:

Inflation	
Price	2.75%
Wage	3.25%
Salary Increases:	
Through 2026	2.00 - 6.00% Based on Years of Service
Thereafter	3.00 - 7.00% Based on Years of Service
Investment Rate of Return	7.00%
Mortality Rate Table	
PERS	Pub-2010 General Classification Headcount weighted mortality with fully generational mortality improvement projections from the central year using Scale MP-2020
Period of Actuarial Experience Study upon which Actuarial Assumptions were Based	July 1, 2014 - June 30, 2018

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee Mortality Table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and

Note 9. Pension Obligations (continued):

A. Public Employees' Retirement System (PERS) (continued):

117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2020.

The actuarial assumptions used in the July 1, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2020) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2020 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Risk Mitigation Strategies	3.00%	3.40%
Cash Equivalents	4.00%	0.50%
U.S. Treasuries	5.00%	1.94%
Investment Grade Credit	8.00%	2.67%
High Yield	2.00%	5.95%
Private Credit	8.00%	7.59%
Real Assets	3.00%	9.73%
Real Estate	8.00%	9.56%
U.S. Equity	27.00%	7.71%
Non-U.S. Developed Markets Equity	13.50%	8.57%
Emerging Markets Equity	5.50%	10.23%
Private Equity	13.00%	11.42%
	100.00%	

Discount Rate - The discount rate used to measure the total pension liability was 7.00% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 78% of the actuarially determined contributions for the State employer and

Note 9. Pension Obligations (continued):

A. Public Employees' Retirement System (PERS) (continued):

100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the Net Pension Liability to Changes in the Discount Rate - The following presents the District's proportionate share of the net pension liability calculated using the discount rate as disclosed above, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Fire District's Proportionate Share of the Net Pension Liability	$ 505,956	$ 398,789	$ 313,651

B. Police and Firemen's Retirement System (PFRS)

Plan Description – The State of New Jersey, Police and Firemen's Retirement System (PFRS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PFRS, please refer to the Division's Comprehensive Annual Financial Report (CAFR) which can be found at http://www.state.nj.us/treasury/pensions/annual-reports.shtml.

The vesting and benefit provisions are set by N.J.S.A. 43:16A. PFRS provides retirement as well as death and disability benefits. All benefits vest after ten years of service, except disability benefits which vest after four years of service.

The following represents the membership tiers for PFRS:

Tier	Definition
1	Members who were enrolled prior to May 22, 2010.
2	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
3	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits are available at age 55 and are generally determined to be 2% of final compensation for each year of creditable service, as defined, up to 30 years plus 1% for each year of service in excess of 30 years. Members may seek special retirement after achieving 25 years of creditable service, in which benefits would equal 65% (tiers 1 and 2 members) and 60% (tier 3 members) of final compensation plus 1 % for each year if creditable service over 25 years but not to exceed 30 years. Members may elect deferred retirement benefits after achieving ten years of service, in which case benefits would begin at age 55 equal to 2% of final compensation for each year of service.

Note 9. Pension Obligations (continued):

B. Police and Firemen's Retirement System (PFRS) (continued):

Basis of Presentation - The schedule of employer and nonemployer allocations and the schedule of pension amounts by employer and nonemployer (collectively, the Schedules) present amounts that are considered elements of the financial statements of PFRS, its participating employers or the State as a nonemployer contributing entity. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of PFRS, the participating employers, or the State. The accompanying Schedules were prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of PFRS to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

Contributions - The contribution policy for PFRS is set by *N.J.S.A. 43:16A* and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's contribution amount is based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. For fiscal year 2020, the State contributed an amount less than the actuarially determined amount. The Local employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PFRS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets. For the year ended December 31, 2020, the District's contractually required contributions to PFRS plan was $621,199.

Net Pension Liability and Pension Expense - At December 31, 2020 the District's proportionate share of the PFRS net pension liability was $7,184,855. The net pension liability was measured as of June 30, 2020. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of July 1, 2019, to the measurement date of June 30, 2020. The District's proportion of the net pension liability was based on the District's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2020. The District's proportion measured as of June 30, 2020, was 0.05560%, which was an increase of 0.00622% from its proportion measured as of June 30, 2019.

Balances at December 31, 2020 and Decmber 31, 2019

	12/31/2020	12/31/2019
Actuarial valuation date (including roll forward)	June 30, 2020	June 30, 2019
Deferred Outflows of Resources	$ 1,740,010	$ 855,489
Deferred Inflows of Resources	2,041,996	2,228,874
Net Pension Liability	7,184,855	6,043,585
Fire District's portion of the Plan's total net pension Liability	0.05560%	0.04938%

Note 9. Pension Obligations (continued):

B. Police and Firemen's Retirement System (PFRS) (continued):

Pension Expense and Deferred Outflows/Inflows of Resources – At December 31, 2020, the District's proportionate share of the PFRS expense, calculated by the plan as of the June 30, 2020 measurement date was $691,070. This expense is not recognized by the District because of the regulatory basis of accounting as described in Note 1, but as previously mentioned the District contributed $621,199 to the plan in 2020.

At December 31, 2020, the District had deferred outflows of resources and deferred inflows of resources related to PFRS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between Expected and Actual Experience	$ 72,436	$ 25,786
Changes of Assumptions	18,081	1,926,217
Net Difference between Projected and Actual Earnings on Pension Plan Investments	421,282	-
Changes in Proportion and Differences between Fire District Contributions and Proportionate Share of Contributions	1,228,211	89,993
	$ 1,740,010	$ 2,041,996

The District will amortize the above sources of deferred outflows and inflows related to PFRS over the following number of years:

2024	106,069
2025	60,646
	$ (301,986)

Special Funding Situation – Under N.J.S.A. 43:16A-15, local participating employers are responsible for their own contributions based on actuarially determined amounts, except where legislation was passed which legally obligated the State if certain circumstances occurred. The legislation which legally obligates the state is as follows: Chapter 8, P.L. 2000, Chapter 318, P.L. 2001, Chapter 86, P.L. 2001, Chapter 511, P.L, 1991, Chapter 109, P.L. 1979, Chapter 247, P.L. 1993 and Chapter 201, P.L. 2001. The amounts contributed on behalf of the local participating employers under this legislation is considered to be a special funding situation as defined by GASB Statement No. 68 and the State is treated as a non-employer contributing entity. Since the local participating employers do not contribute under this legislation directly to the plan (except for employer specific financed amounts), there is no net pension liability to report in the financial statements of the local participating employers related to this legislation.

Additionally, the State's proportionate share of the PFRS net pension liability attributable to the District is $1,115,057 as of December 31, 2020. The net pension liability was measured as of June 30, 2020. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of July 1, 2019, to the measurement date of June 30, 2020. The State's proportion of the net pension liability associated with the District was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. The State's proportion measured as of June 30, 2020 was 0.05560%, which was an increase of 0.00622% from its proportion measured as of June 30, 2019, which is the same proportion as the District's. At December 31, 2020, the District's and the State of New Jersey's proportionate share of the PFRS net pension liability were as follows:

Fire District's Proportionate Share of Net Pension Liability	$ 7,184,855
State of New Jersey's Proportionate Share of Net Pension Liability Associated with the Fire District	1,115,057
	$ 8,299,912

Note 9. Pension Obligations (continued):

B. Police and Firemen's Retirement System (PFRS) (continued):

At December 31, 2020, the State's proportionate share of the PFRS expense, associated with the District, calculated by the plan as of the June 30, 2020 measurement date was $126,369.

Actuarial Assumptions - The total pension asset/(liability) as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuations used the following actuarial assumptions:

Inflation	
Price	2.75%
Wage	3.25%
Salary Increases:	
Through all future years	3.25 - 15.25% Based on Years of Service
Investment Rate of Return	7.00%
Mortality Rate Table	
PFRS	Pub-2010 Safety Classification Headcount weighted mortality with fully generational mortality improvement projections from the central year using Scale MP-2020
Period of Actuarial Experience Study upon which Actuarial Assumptions were Based	July 1, 2013 - June 30, 2018

Pre-retirement mortality rates were based on the Pub-2010 Safety Employee mortality table with a 105.6% adjustment for males and 102.5% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Safety Retiree Below-Median Income Weighted mortality table with a 96.7% adjustment for males and 96.0% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. For beneficiaries (contingent annuitants), the Pub-2010 General Retiree Below-Median Income Weighted mortality table was used, unadjusted, and with future improvement from the base year of 2010 on a generational basis. Disability rates were based on the Pub-2010 Safety Disabled Retiree mortality table with a 152.0% adjustment for males and 109.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2020.

The actuarial assumptions used in the July 1, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2013 to June 30, 2018.

Note 9. Pension Obligations (continued):

B. Police and Firemen's Retirement System (PFRS) (continued):

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2020) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PFRS's target asset allocation as of June 30, 2020 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Risk Mitigation Strategies	3.00%	3.40%
Cash Equivalents	4.00%	0.50%
U.S. Treasuries	5.00%	1.94%
Investment Grade Credit	8.00%	2.67%
High Yield	2.00%	5.95%
Private Credit	8.00%	7.59%
Real Assets	3.00%	9.73%
Real Estate	8.00%	9.56%
U.S. Equity	27.00%	7.71%
Non-U.S. Developed Markets Equity	13.50%	8.57%
Emerging Markets Equity	5.50%	10.23%
Private Equity	13.00%	11.42%
	100.00%	

Discount Rate - The discount rate used to measure the total pension liability was 7.00% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based on 78% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the Net Pension Liability to Changes in the Discount Rate - The following presents the District's proportionate share of the net pension liability calculated using the discount rate as disclosed above, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

Note 9. Pension Obligations (continued):

B. Police and Firemen's Retirement System (PFRS) (continued):

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.0%)
Fire District's Proportionate Share of the Net Pension Liability	$ 9,554,378	$ 7,184,855	$ 5,216,785
State of New Jersey's Proportionate Share of Net Pension Liability associated with the Fire District	1,482,796	1,115,057	809,621
	$ 11,037,174	$ 8,299,912	$ 6,026,406

Related Party Investments - The Division of Pensions and Benefits does not invest in securities issued by the District.

NOTE 10: LENGTH OF SERVICE AWARDS PROGRAM

Plan Description – The Fire District's Length of Service Awards Program (LOSAP) provides tax deferred income benefits to active volunteer firefighters. The plan is intended to comply with Section 457(e)(11)(A)(ii) of the Internal Service Code of 1986, as amended.

The assets of the plan are invested in a fixed-income Group Annuity Contract with MassMutual Life Insurance Company under which MassMutual pools funds invested for various Length of Service Awards Program customers along with funds in The MassMutual's general account. Interest income is provided at an average rate of return of approximately 3.5% for 2020 and there is a guaranteed minimum return of 3%.

Contributions – The District has a contractual obligation to pay the LOSAP benefits to eligible members. Assets that are designated to pay the LOSAP benefits are available to the unsecured creditors of the District. As such, the assets and liabilities of the LOSAP are included in the financial statements of the District. For the year ended December 31, 2020 the District's contractually required contribution to the plan was $413,479.

Basis of Presentation – The accompanying Schedules were prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of LOSAP to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

Components of Net Pension Liability – At December 31, 2020, the District's net pension liability relating to the length of service awards program was $12,867,968. The net pension liability was measured as of March 31, 2020. The net pension liability was determined using update procedures to

NOTE 10: LENGTH OF SERVICE AWARDS PROGRAM (continued)

roll forward the total pension liability from an actuarial valuation as of April 1, 2020, which was rolled forward to December 31, 2020. The components of the net pension liability at December 31, 2020, were as follows:

Collective Balances at December 31, 2020

	12/31/2020
Actuarial valuation date	January 1, 2019
Deferred outflows of resources	$ 1,577,627
Deferred inflows of resources	13,226
Plan fiduciary liability	-
Net pension liability	12,867,968
Plan fiduciary net position as a percentage of the total pension liability	0.00%

The following table shows the Changes in the Net Pension Liability as follows:

	Increase (Decrease)		
	Total Pension Liability (a)	**Plan Fiduciary Net Position (b)**	**Net Pension Liability (a) - (b)**
Balances at 4/1/20	$ 12,205,043	$ -	$ 12,205,043
Changes for the year:			
Service cost	$ 210,026	$ -	$ 210,026
Interest	284,484	-	284,484
Changes of benefit terms	-	-	-
Differences between expected and actual experience	36,706	-	36,706
Changes in assumptions	336,494	-	336,494
Benefit payments and expenses	(204,875)	-	(204,875)
Net Changes	662,835	-	662,835
Balances at 12/31/20	$ 12,867,878	$ -	$ 12,867,878

Pension Expense – The pension expense, calculated by the plan as of the December 31, 2020 measurement date is $1,263,156 as follows:

NOTE 10: LENGTH OF SERVICE AWARDS PROGRAM (continued)

Note	Description	Amount
A	Service Cost	$ 210,026
B	Interest on the total pension liability	284,484
A	Changes of benefits terms	-
C	Differences between expected and actual experience	26,121
C	Changes of assumptions	742,525
	Total Pension Expense Relating to LOSAP	$ 1,263,156

Notes:

A Provided in the Changes in Net Pension Liability exhibit

B Based on the following calculation:

Amount for Period (1)	Portion of Period (2)	Projected Rate of Return (3)	Projected Earnings (1) x (2) x (3)
$ 12,205,043	100%	2.35%	$ 286,819
210,026	0%	2.35%	-
(198,755)	50%	2.35%	(2,335)
			$ 284,483

C Provided in summary of deferred outflows and deferred inflows

Deferred Outflows/Inflows of Resources – At December 31, 2020 the District's reported deferred outflows of resources and deferred inflows of resources related to the length of service awards program from the following sources:

The District will amortize the above sources of deferred outflows and inflows related to the length of service awards program over the following number of years:

NOTE 10: LENGTH OF SERVICE AWARDS PROGRAM (continued)

	Deferred Outflow of Resources	Deferred Inflow of Resources
Differences between Expected and Actual Experience		
Year of LOSAP Plan Deferral: December 31, 2020	3.00	3.00
Changes of Assumptions		
Year of LOSAP Plan Deferral: December 31, 2020	3.00	-

The following is a summary of the deferred outflows of resources and deferred inflows of resources related to the length of service awards program that will be recognized as pension expense in future periods:

Year Ended December 31,	Amount
2022	$ 768,644
2023	702,460
2024	93,297
2025	-
2026	-
Thereafter	-
	$ 1,564,401

NOTE 10: LENGTH OF SERVICE AWARDS PROGRAM (continued)

Actuarial Assumptions – The total pension liability was determined by an actuarial valuation as of April 1, 2020 rolled forward to December 31, 2020 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	0.00%
Salary Increases:	Not Applicable
Investment Rate of Return	2.35% net of pension plan investment expense, including inflation
Mortality Rate Table	Pretirement: None Post-retirement: RP2000 projected to 2030
Retirement	First eligible
Turnover	T5
Disability	None

The above is a summary of key actuarial assumptions. Full descriptions of the actuarial assumptions are available in the April 1, 2020 actuarial valuation report.

Discount Rate – The discount rate used to measure the total pension liability 2.35% which is based on the 20-year AA general obligation bond rate as of March 31, 2021.

Sensitivity of the District's Net Pension Liability to Changes in the Discount Rate – The following presents the District's net pension liability calculated using the discount rate as disclosed above, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.35%) or 1-percentage-point higher (3.35%) than the current rate:

	1% Decrease (1.35%)	Current Discount Rate (2.35%)	1% Increase (3.35%)
Net Pension Liability - LOSAP	$ 13,776,581	$ 12,867,968	$ 11,938,924

NOTE 11: FUNDING AND CONCENTRATIONS

The activities of the Board of Commissioners are primarily funded by striking a fire tax rate on property owners of the Fire District, as provided for by the state statute. For the year ended December 31, 2020, the fire tax rate on Fire District No. 1 was $.139 per $100 of assessed valuation.

The tax revenue is supplemented by income earned on surplus funds invested in a money market fund and investments during the year. The District also participates in the Supplemental Fire Services Program and received a basic entitlement grant of $16,419.

The ability to levy property taxes, and the limits to which property taxes can be levied, are promulgated by State statute. As a result of this dependency, the Fire District's operations are significantly reliant and impacted by State laws and regulations regarding property taxes.

NOTE 12: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

A. Property and Liability Insurance

The District maintains commercial insurance coverage for property, liability and surety bonds. Insurance coverage was maintained in amounts consistent with prior years. The District did not have any claims that exceeded coverage.

B. New Jersey Unemployment Compensation Insurance

The Fire District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the Fire District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The Fire District is billed quarterly for amounts due to the State.

The following is a summary of the activity of the Fire District for the unemployment claims for the current and previous two years:

Fiscal Year	District Contributions	Employee Contributions	Interest Earnings	Amount Reimbursed	Ending Balance
2020	$ -	$ -	$ -	$ 949	$ 1,864
2019	-	-	182	688	2,813
2018	-	-	125	343	3,319

NOTE 13. DEFERRED COMPENSATION

The Fire District offers its employees a Deferred Compensation Plan in accordance with Internal Revenue Code Section 457 which has been approved by the Director of the Division of Local Government Services. The Plan, available to all full time employees at their option, permits employees to defer a portion of their salary to future years. The deferred compensation is not available to participants until termination, retirement, death, or unforeseeable emergency.

Amounts deferred under Section 457 plans must be held in trust for the exclusive benefit of participating employees and not be accessible by the Fire District or its creditors. Since the Fire District does not have a fiduciary relationship with the Plan, the balances and activities of the Plan are not reported in the Fire District's financial statements.

NOTE 14: COMPENSATED ABSENCES

The Fire District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

Full time employees are entitled to 135 paid sick leave hours per year for firemen, and 120 paid sick leave hours per year for administrative positions. Unused sick leave may be accumulated and carried forward for subsequent years. Full time employees accrue vacation leave based on years of employment. Accumulation of annual vacation leave from year to year may be permitted at the discretion of the District Fire Chief. No more than ten (10) vacation leave days may be carried over in any one anniversary year for an employee.

Upon retirement or other termination of employment of a District employee, the employee shall be paid equivalent of the vacation leave time accrued, based on the current rate of pay.

The liability for vested compensated absences is recorded within those funds as the benefits accrue to employees. As of December 31, 2020, the liability for compensated absences reported on the government-wide statement of net position was $559,972.

NOTE 15: INTERFUND RECEIVABLE/PAYABLE

The purpose of the interfunds is for short-term borrowing. As of December 31, 2020, the following interfund balances remained on the balance sheet:

Fund	Interfund receivable	Interfund payable
General	$ 172,720	$ -
Capital Projects	-	172,720
Totals	$ 172 720	$ 172,720

NOTE 15: INTERFUND RECEIVABLE/PAYABLE (continued)

Interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

As previously mentioned, these amounts are eliminated in the governmental columns of the Statement of Net Position.

NOTE 16: FUND BALANCES APPROPRIATED

The 2020 annual budget of the Fire District was adopted on March 5, 2020 and subsequently approved by the voters at the annual election. The budget utilized $300,000 of unreserved fund balance in the general fund.

The following presents the fund balance as of the end of the last five years and the amount utilized in the subsequent year's budget:

For the year ended December 31,	Balance at December 31,	Utilization in Subsequent Budget
2020	$ 16,565,040	$ 717,000
2019	6,597,792	300,000
2018	6,469,714	650,000
2017	6,249,450	360,000
2016	1,846,075	410,000

NOTE 17: FUND BALANCES

Restricted

As stated in note 1, the restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources by either of the following: (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation. Specific restrictions of the Fire District's fund balance are summarized as follows:

General Fund

New Jersey Unemployment Trust Fund - Pursuant to N.J.S.A. 43:21-7.3g, the Board of Fire Commissioners has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method" (see note 12). As a result, there exists at December 31, 2020 a restricted fund balance from employer contributions in the amount of $1,864 for future unemployment claims.

NOTE 17: FUND BALANCES (continued)

Length of Service Awards Program (LOSAP) - Pursuant to N.J.S.A. 40A:14-187, all accumulated proceeds shall remain restricted for the volunteer members. As a result, there exists at December 31, 2020 a restricted fund balance in the amount of $5,566,632 for future benefit payments of volunteers.

Capital Projects Fund

Capital Projects (Future Capital Outlays) - These funds are restricted for future capital expenditures to be made in future years. When the Fire District desires to utilize these funds in their annual budget, a capital resolution must be passed by the Board of Fire Commissioners prior to any expenditure against a capital appropriation. As of December 31, 2020, the balance is $9,186,139.

Debt Service Fund

Debt Service Payments - These funds are restricted for future debt service expenditures to be made in future years. As of December 31, 2020, the balance is $8,907.

Assigned

As stated in note 1, the assigned fund balance classification includes amounts that are constrained by the Fire District's intent to be used for specific purposes, but are neither restricted nor committed. Specific assignments of the Fire District's fund balance are summarized as follows:

General Fund

For Subsequent Year's Expenditures - The Fire District has appropriated and included as anticipated revenue for the year ending December 31, 2020, $717,000 of general fund balance.

Unassigned

As stated in note 1, the unassigned fund balance classification represents fund balance that has not been restricted, committed, or assigned to specific purposes. The Fire District's unassigned fund balance is summarized as follows:

General Fund - As of December 31, 2020, $1,084,498 of general fund balance was unassigned.

NOTE 18: DEFICIT UNRESTRICTED NET POSITION

As reflected on Exhibit A-1, Statement of Net position, a deficit in unrestricted net position of $(18,878,524) existed as of December 31, 2020 for governmental activities. The primary cause of this deficit is the recording of the long-term liability for net pension, long-term liability of other post-retirement benefits and long-term liability for the LOSAP obligation. In accordance with full accrual accounting, which is the basis of accounting for Exhibit A-1, Statement of Net position, such liabilities are required to be recorded in the period in which they are incurred. However, in accordance with the rules and regulations that govern the District in the formulation of their annual budget (see Note 1),

NOTE 18: DEFICIT UNRESTRICTED NET POSITION (continued)

pension liabilities that relate to future services, or that are contingent on a specific event outside the control of the District and its employees, are funded in the period in which such services are rendered or in which such events take place. Therefore, this deficit in unrestricted net position for governmental activities is not an indication that the District is facing financial difficulties or going concern issues.

NOTE 19: RESTATEMENT OF PRIOR PERIOD FINANCIAL STATEMENT

During the year ended December 31, 2020 the District adopted GASB Statement No. 84, *Fiduciary Activities* (See Note 2). The District adjusted its beginning balances to reflect all newly adopted standards for its Restricted Net Position and Restricted Fund Balance for New Jersey Unemployment Trust Fund. The beginning balances as of January 1, 2020 were adjusted as follows:

Prior Period Adjustment to Net Position

Balance, January 1, 2020 prior to Adjustment	$ (10,526,819)
Add:	
New Jersey Unemployment Trust	2,813
Balance, January 1, 2020, Restated	$ (10,524,006)

Prior Period Adjustment to Fund Balance (General Fund)

Balance, January 1, 2020 prior to Adjustment	$ 6,720,713
Add:	
New Jersey Unemployment Trust	2,813
Balance, January 1, 2020, Restated	$ 6,723,526

NOTE 20: SUBSEQUENT EVENTS

Management has reviewed and evaluated all events and transactions that occurred between December 31, 2020 and March 28, 2022, the date that the financial statements were available for issuance, for possible disclosure and recognition in the financial statements, and no items other than the following have come to the attention of the District that would require disclosure.

The COVID-19 pandemic is ongoing. Because of the evolving nature of the outbreak and federal, state and local responses, it cannot be predicted how the outbreak will impact the financial condition or operations of the District, or if there will be any impact on the assessed values of property within the District or deferral of tax payments to municipalities. To date the District has not been materially and adversely affected financially due to the virus.

FIRE DISTRICT NO. 1 OF THE TOWNSHIP OF WASHINGTON
Budgetary Comparison Schedule
For the year ended December 31, 2020

	Original Budget	Modified Budget	Actual Budgetary Basis	Variance
Revenues:

Total fund balance per governmental funds (GAAP)	$ 16,565,040

EXHIBIT C-1A

FIRE DISTRICT NO. 1 OF THE TOWNSHIP OF WASHINGTON
Notes to the Required Supplementary Information
Budget-to-GAAP Reconciliation
For the year ended December 31, 2020

	Total Governmental Funds
Sources/Inflows of Resources:	
Actual Amounts (Budgetary Basis) "Revenue" From the Budgetary Comparison Schedule (C-1)	$ 7,161,628
Difference - Budget to GAAP:	
Budgetary basis differs from GAAP in that the District does not budget for length of service awards program investment income. GASB 73 requires the investment appreciation in the length of service awards program to be shown in financial statements using the current financial resources measurement focus and modified accrual basis of accounting:	
Net appreciation in fair value of investments	161,721
Total Revenues as Reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds (B-2)	$ 7,323,349
Uses/Outflows of Resources:	
Actual Amounts (Budgetary Basis) "Total Appropriations" From the Budgetary Comparison Schedule (C-1)	$ 7,565,980
Budgetary basis differs from GAAP in that the District is required to budget for contributions to the length of service awards program. Expenditures under the current financial resources measurement focus and modified accrual basis of accounting are limited to the benefits paid in accordance with the Plan.	
Length of service awards program district contribution	(413,479)
Administrative fees	6,030
Group life insurance premiums	15,106
Participant withdrawals	155,277
Total Expenditures as Reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds (B-2)	$ 7,328,914

FIRE DISTRICT NO. 1 OF THE TOWNSHIP OF WASHINGTON
SUMMARY SCHEDULE OF PRIOR YEAR AUDIT FINDINGS
FOR THE YEAR ENDED DECEMBER 31, 2020

This section identifies the status of prior year findings related to the financial statements.

FINANCIAL STATEMENT FINDINGS

Finding No. 2019-01

Condition:
It was noted during our audit of the District's Capital Projects Fund, that capital appropriations were overspent by $142,000. This was due to the District's purchase of land and structure in the amount of $142,000 that was not included in the 2018 capital budget. Additionally, it was noted that the District did not hold a special meeting to obtain voter approval for this purchase. As a result, the Capital Projects Fund resulted in a deficit of $122,921.

Current Status:
This finding has been corrected.

FIRE DISTRICT NO. 1 OF THE TOWNSHIP OF WASHINGTON
SCHEDULE OF FINANCIAL STATEMENT FINDINGS
FOR THE YEAR ENDED DECEMBER 31, 2020

This section identifies the significant deficiencies, material weaknesses and instances of noncompliance related to the basic financial statements that are required to be reported in accordance with *Government Auditing Standards* and with audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey.
